I'm really tired of my job and I think I want to start looking for something new.

Use these questions to help you create your backstory. Write down notes with your ideas.

What is your job?

How do you feel about your boss?

How long have you been working there?

Do you want to change careers or just jobs?

What do you dislike about the job?

Will it be easy to get a new job?

Is there anything you like about it?

Will there be any financial complications?

How do you feel about your colleagues?

Would anything make you change your mind?

3. When you are ready, read the prompt to the candidate (Student A). Use the information that you planned to answer their questions, but only tell them information that they ask about.
