

## First (FCE) – Speaking Part 2 “Long Turn” – Useful Language

1. Listen to and read this example of a First (FCE) candidate’s Speaking Part 2 test. Did they answer the question well?

Why have these people chosen to shop in these places?

“Ok, let’s see. **There are two pictures of** people shopping. The first picture **looks like** an outdoor market **while** the second picture is inside. **Maybe** it’s a bakery or a supermarket. Why have people chosen to shop here? Hmm. **I suppose that in the first picture** the people might have chosen to shop in the market because the products are very local and very fresh. **Whereas** in the second picture, the bakery **could be** very convenient for her. You know, it’s common to have a bakery very close to your house. The bread looks very good too. **It’s possible that** the market isn’t open every day so sometimes people go to the market as a special trip, like with their family, to buy different products that aren’t available in a normal supermarket.”

2. Add the words in **bold** from the transcript above to the appropriate category below:

3. Now practise Speaking Part 2 with a partner. Use the useful language. Speak for 1 minute.

How important is shopping to these people?

Why are these people shopping together?

Why do people buy these things?
